It is the aim of Professor Wheater to abolish the custom now existing in the Colony of the Public heatswing their patronuce upon the Chinese, who set themselves up to be conversant with the art of Halr Dressing, seeing that they are self taught and their idens differing so widely as they do in the decoration of their own Colestial Oranium, disquelifies them for any such undertaking. It being palpable in the even of all Murapeans in Chips that the made adorted by the Chinese of outting the hair is a disfigurement in the head, therefore Professor. Wheeler cautions the public against the evil now existing of having their hair dressed by Chinese who not only disfigure their rictims for the time, but cause immense labor to ginal shape and elasticity. Professor Whooler is the originator of several superior Washes for the hair composed of ingredients unknown to others in the art, and by their application guarantees the scalp and allows the hair a free access of growth.
